- Dimension in mm: 122 (W) x 160 (H) x 82 (D)
- Colour: RAL 9002 (light grey)
- Weight: 1,8 kg (without power supply unit)
- Power supply: 24V DC, 100 mA
- Made in Germany
- CE-sign

COPYTRON[®] is a registered trademark of HÖR electronic.

General:

The copier accounting system CA 2200 is universal usable for all common copier types and is most suitable for universities, schools, bookshops, stores, copy-shops, etc. ...

To enable the copier a 4 digit cost centre number or a 7 digit code number can be entered. Several code numbers can be assigned to each cost centre. Therefore it is possible to build groups of users. Using the CA 2200 limited or unlimited copying is possible. Each cost centre has one total and one interim counter.

The optional ethernet-connections allows to administrate all settings and meter readings by using the COPYTRON[®]-Manager. Also all printing jobs can be accounted by using the INPAS 300 or INPAS 400. Printing jobs can be fetched at any connected CA 2200 (follow-me function).
